RANGES

TAKE IT EASY

Why make housekeeping harder by using a hot coal stove? Madam, figure out the time and money you can save by cooking with gas. Use coal or wood and 90 per cent of the heat goes up the chimney. The 10 per cent that is left cooks your food and half cooks your cook.

Think of the hot days of last summer.
The time to install a Gas Range is now.

Terms reasonable for both appliances and piping.

FOUNDED BY RELIGIOUS MEN
Our Nation Owe Its Origin to Those Who Gave in Fear of God.

No student of the philosophy of history will for a moment deny that the discovery and colonization of North America was directed by the guiding hand of Providence, neither will anyone dispute that the Declaration of Independence and the formation of our government were the actions of men who stood in conscious fear of the Lord. Each of the original 13 colonies was established on distinctive and dominant religious principles. Each of them sought to know the will of God, and to do it. In all their discussion of the problems of freedom and in their reasons for independence our fathers made their appeal to God and his truth was written in their hearts. They looked to him as their leader and defender. When liberty came they recognized God as its author-giver, so that the emblem of our freedom was a God-given banner to those who feared him and did all to their power to make his will supreme in the earth.
